DUMBO

ZOETROPE

Create your very own Zoetrope,
old time animation device!

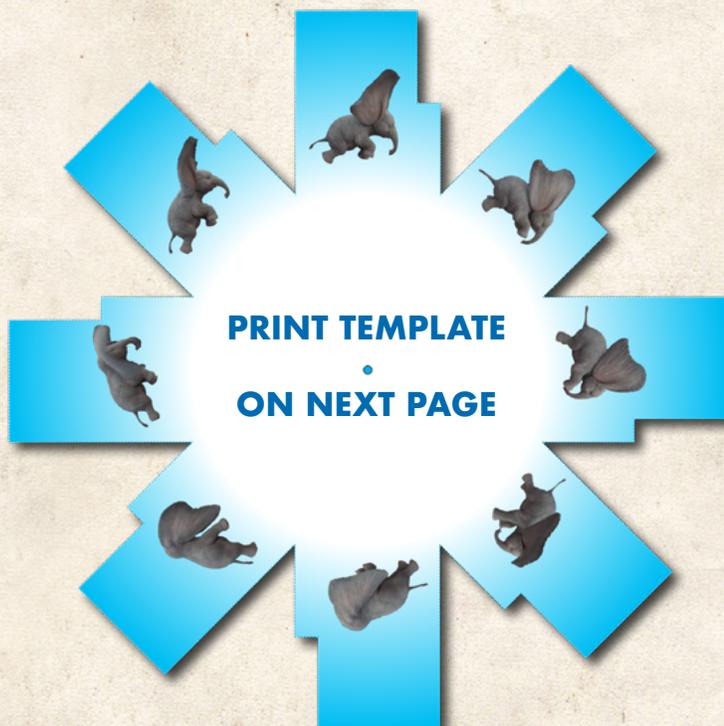

Things you will need:

- Printer
- Paper (2 pieces)
- Straw (1 wide)
- Straw (1 regular)
- Scissors
- Glue stick
- Hot glue
- Black tape
- Thumbtack

INSTRUCTIONS

ADULT SUPERVISION REQUIRED

- 1. Print** pages 2 and 3
- 2. Glue pages** together back-to-back with your glue stick and let dry.
- 3. Cut large straw** in half and fill one end with 1/2" of hot glue and let dry.
- 3. Cutout zoetrope wheel** carefully along the blue dashed lines.
- 4. Fold** each of the 8 tabs along the light blue line until they are all standing at a 45° angle to make a bowl.
- 5. Apply tape** carefully around the entire bottom edge circumference to hold each tab together and into place.
- 6. Attach** zoetrope bowl to your straw by poking your thumbtack through the blue dot in the center of the bowl and into the glue-filled top of the straw.
- 7. Insert** the regular straw into the wider straw mounted under the bowl.
- 8. Spin and watch!** Spin your zoetrope by holding the bottom straw in place while turning the mounted straw with your other hand. Watch through the slats and see Dumbo take flight before your eyes!
